ABSTRACT:

PROBLEM TO BE SOLVED: To provide a dynamic Web page generation program that a program work can be separated from a design work in the developing stage of a dynamic Web page in order to improve the efficiency and quality of the developing and maintaining work of the dynamic Web page.

SOLUTION: A CGI program 7 and an HTML template 8 that a common replacement identifier is added to dynamic changing parts are prepared. At the time of generating a dynamic Web page, a dynamic Web page generation

program 9  
generates dynamic Web page by replacing the contents of the  
dynamic changing  
part of the HTML template 8 with contents decided by the CGI  
program 7 by using  
the displacement identifier.
